

## FCC Opens Window for NCE Petitioners for 498 Vacant FM Allotments

### *Window Open Until November 21, 2003*

The Commission, through its Media Bureau, yesterday announced the opening of a window during which noncommercial educational (NCE) petitioners will be permitted to file reservation showings for 498 vacant FM channels, including approximately 350 channels that were included in Auction No. 37. The list of allotments is included as part of this **Special Bulletin**.

The *Public Notice* (DA 03-2990) notes that NCE petitioners must follow the reservation methodology described in the Commission's *NCE Second Report and Order*, adopted earlier this year. That methodology, in essence, requires that petitioners make two showings: first, that they are technically precluded from using a reserved channel, and second that the proposed reserved allotment would provide a first and/or second NCE radio service to at least 10 percent of the population within the 1 mV/m contour of the proposed station.

Interested parties will be required to file an original and four copies of a petition for rulemaking to amend the FM Table of Allotments on paper by November 21, 2003. Electronic filing will not be permitted, and the November 21 deadline will be strictly enforced.

Petitions for rulemaking will be made available through the Commission's ECFS system, as well as through its Reference Information Center and its duplicating contractor. FCC staff will issue a *Notice of Proposed Rulemaking* for each reservation showing that complies with the reservation methodology. Those objecting to any reservation showing will be allowed to file opposition comments within the time specified in the *Notice of Proposed Rulemaking*. Counterproposals or amendments to the reservation showing as originally submitted in the

petition for rulemaking will not be permitted. The deadline for reply comments will also be specified in the *Notice of Proposed Rulemaking*.

For more information on the opportunities that the *Public Notice* has made available, including assistance in the preparation and filing of petitions for rulemaking, please contact any of the lawyers in the Communications Practice Group.
